

RESPIRATORY PRO FORMA

Demographic data :

Full Name :

Age :

Gender :

Ward :

Date of admission :

Date of surgery :

Date of assessment :

Address :

Phone number :

Chief complaints :

Complaint	Site	Duration	Progression

Secondary Complaints :

- Breathlessness -
- Chest pain -
- Cough -
- Expectoration -
- Haemoptysis -
- Wheeze -

History of present illness :

Differential diagnosis :

Pain history :

- Site :
- Onset :
- Duration :
- Type :
- Character :
- Aggravating Factors :
- Relieving Factors :
- Intensity by NPRS or VAS :
 - On Activity:
 - At Rest:

Breathlessness (Dyspnoea) :

- Present/Absent -
- Grade - **ATS** or **MMRC** Grading

Family history :

Past history :

- Past Medical -
- Past Surgical -

Socioeconomic history :

- **Modified Kuppuswami Scale :**

Environmental history :

- Work -
- Home -

Personal history :

- Appetite-
- Sleep-
- Narcotic addiction-
- Alcohol addiction-
- Bowel-
- Bladder -
- Allergy -

History of hospitalization :

- No of admissions -
- Duration of each admission -
- Investigations done -
- Diagnosis -
- Drugs given -
- Advised surgery / intervention -

Physical Examination :

General Examination :

Objective	Subjective
Blood pressure : Temperature : Pulse rate : Respiratory rate :	Built : Nutrition : Pallor : Icterus : Clubbing : Cyanosis : Lymphadenopathy : Thyroid swelling : Oedema : Rheumatic nodules : Petechial haemorrhage : Osler nodes :

Local examination :

- **Wound examination-**

- Site-
- Length-
- Colour-
- Temperature-

- **Suture examination-**

- Site-
- Length-
- Temperature-

- **Tenderness-**

- Site-
- Grade-

- **Posture assessment -**

- Anterior view -
- Lateral view -
- Posterior view -

Respiratory examination :

- **Inspection :**

- Shape of Chest
 - AP and Transverse Diameters
 - Hollowing, Bulging, Flattening
 - Sub-costal angle
 - Shoulders
 - Spine
 - Spinoscapular Distance B/L
- Respiratory Movements
 - Respiratory Rate
 - Rhythm
 - Character - A-T , T-A, A, T
 - Equality
 - Accessory muscles of respiration

- Intercostal retraction/fullness
- Mediastinum
 - Trailes sign
 - Apex impulse

- Miscellaneous
 - Scars, Sinuses
 - Pulsations
 - Dilated Veins
 - Trophic Changes
- **Palpation :**
 - Confirming the findings from inspection-
 - AP and Transverse Diameters
 - Chest movements-
 - Chest excursion
 - Anterior
 - Posterior
 - Chest expansion
 - 2nd Intercostal space-
 - 4th Intercostal space-
 - 6th Intercostal space-
 - Mediastinum
 - Treachea
 - Apex Beat

 - Tactile Vocal Fremitus
 - Anterior

- Lateral
- Posterior

• **Percussion :**

- Anteriorly

Right	Left
Kronig's isthmus B/L Clavicular percussion B/L Intercostal resonance B/L Liver dullness Tidal Percussion Shifting dullness B/L Percussion myokomia B/L Skodiac resonance B/L	Cardiac dullness Traube's area

- Posteriorly
 - Supra-scapular -
 - Inter-scapular -
 - Infra-scapular -
- In Axilla
 - Axillary -
 - Infra axillary -

- **Auscultation :**

- Breath sounds
 - Normal or Diminished
 - Type
 - Vesicular, Bronchial or Vesicular with prolonged expiration
- Foreign sounds -
 - Sound
 - Site
- Vocal Resonance-
 - Anterior
 - Lateral
 - Posterior

Special Test

- Coin test -

Investigations :

Provisional diagnosis :

International classification of Functioning, Disability and Health :

Impairments :

Body Structure	Clinical Reason	Body Function	Clinical Reason

Activity limitations :

Basic	Instrumental

Participation restrictions :

Personal	Social	Economic

Contextual factors :

Buffers	Barriers

Goals :

Sessional :

Short Term :

Long Term :
